

The DynaCold Mini is a smaller, lighter-weight version of our renowned DynaCold Series high-speed electrical application heads. The "Mini" retains all the capabilities of its larger sibling while providing more flexible installation options.

## The DynaCold Mini's enhanced Design Features include:

- Easy installation in every machine.
- 55% smaller than the original DynaCold Series applicator
- Whenever lightweight is required... 50% weight reduction
- Integrated seat nozzle to optimize adhesive cut off
- 360° rotatable electric connection for installation flexibility

## Designed for a wide variety of requirements

- A large selection of nozzles and nozzle plates enables fast/easy changeovers for a variety of gluing requirements
- Special versions may be designed to meet your demands

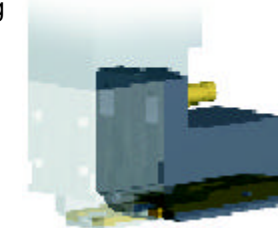

## Easy to maintain and cost-effective

- Assembly/Disassembly is quick and easy with standard tools
- No dynamic seals for less maintenance and lower life-cycle costs
- The ball-seat-closing-mechanism guarantees long-life and reduces costs for wear parts
- All DynaCold Mini application heads are manufactured from stainless steel for long life.
- Designed to meet IP 64 standards

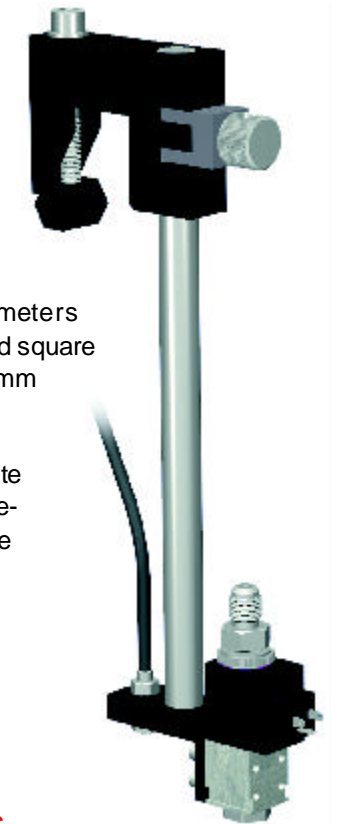

## Convenient nozzle shutter device (optional)

- The nozzle is automatically sealed during periods of machine inactivity to eliminate nozzle clogging
- The shutter is easy to push back, to remove (for cleaning purposes) and to in-stall. Nozzle maintenance is reduced to a minimum.

## Multi-Purpose Mounting Bracket

- The optional bracket meets a wide array of mounting needs
- Robust construction
- Suitable for rods with diameters between 16 and 30 mm and square rods between 15 and 30 mm
- Simple height adjustment
- Designed to easily integrate a photo sensor trigger. Reduced costs as a separate bracket is unnecessary.

## Typical Applications

- Envelopes
- Folding Cartons
- Corrugated Manufacturer's Joint
- Cigarettes
- Pad gluing
- Bookbinding: Back-Boning, Perfect Binding
- In line presses
- Business Forms
- Buckle Folders, Mailings
- Sacks and Bags
- Folder gluers

## Accessories

- Pattern controller for speed-adjusted applications
- Time control for machines with constant speed
- Glue detection
- Piston pump for high-pressure applications
- Diaphragm pump and pressure tank for low pressure requirements
- In-Line fluid filter
